

Sales Coach

store images + a 30-second promo video

Copy-paste prompts for **Nano Banana 2** (images) and **VEO 3.1** (video), each paired with a reference image in this kit to use as an **ingredient / reference frame**. Everything is named by where it's used. Goal: a punchy 30-second promo + the store's required image assets.

assets/nano-banana-marquee-1400x560.png · also the finished Marquee tile, and the anchor look for the whole kit

How the two tools split the work. **NANO BANANA 2** generates the still **store images** (screenshots + promo tiles) — feed it the matching reference image + its prompt. **VEO 3.1** generates the **video clips** — feed it the matching storyboard frame as a reference and its prompt, one clip per scene, then stitch the six clips into the 30-second promo.

→ **To copy-paste any prompt, open prompts.md in this folder.** It has every prompt below as plain text, one clean block each — far easier to select and copy than pulling text out of this PDF. Use this PDF to see each prompt beside its reference image; use prompts.md to copy.

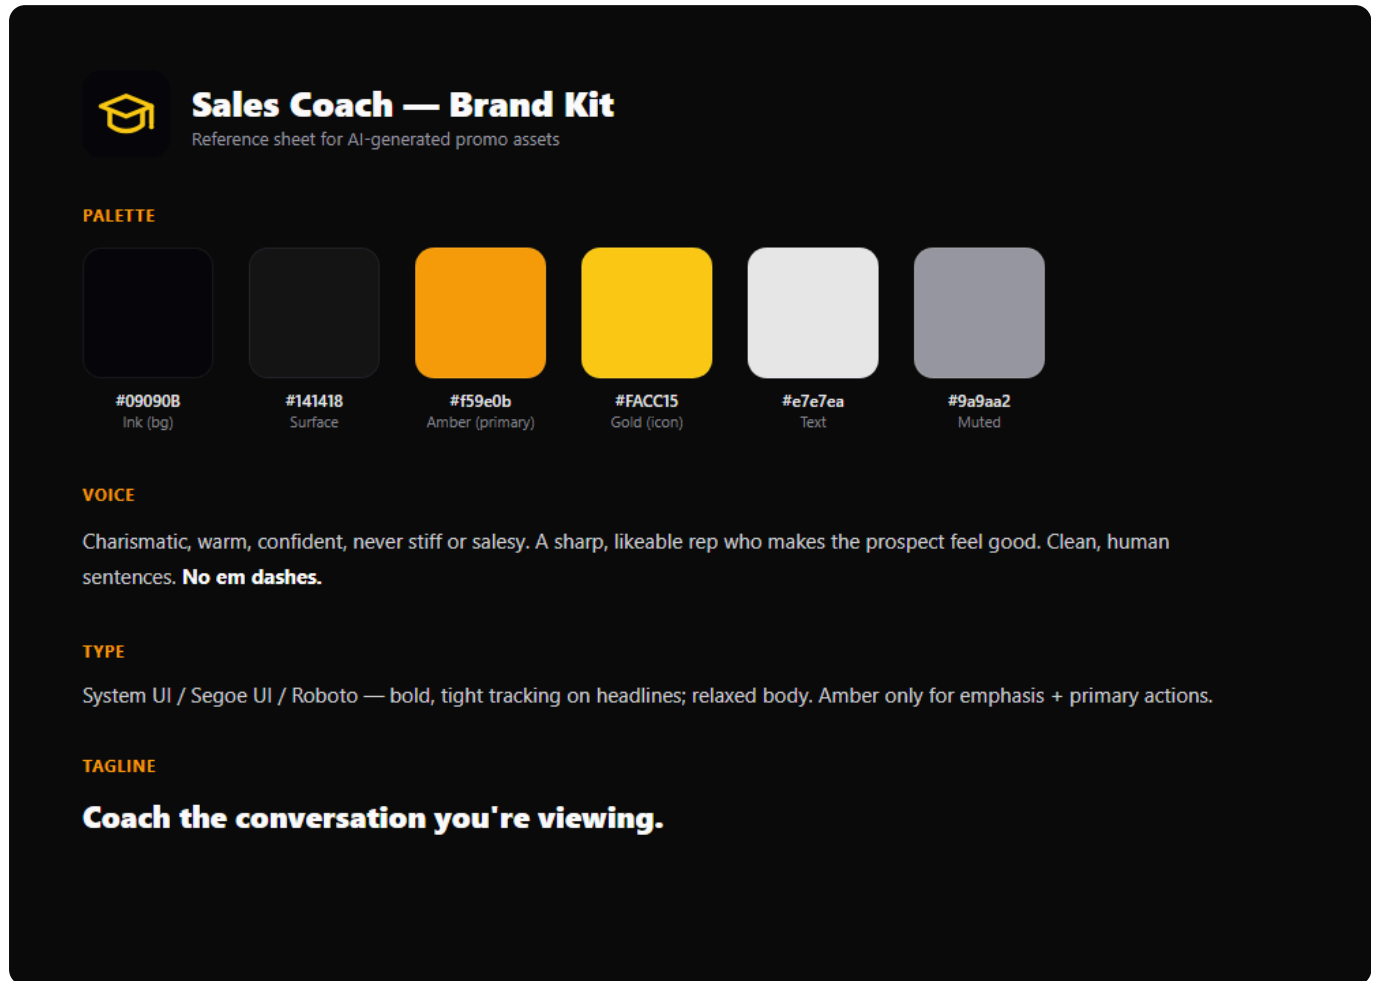

What's in the assets/ folder (your ingredients)

File	Use it as a reference for...
nano-banana-screenshot-1-panel-1280x800.png	Nano Banana 2 — Store screenshots (the exact panel look)
nano-banana-small-tile-440x280.png	Nano Banana 2 — Small promo tile (ready to use as-is, or restyle)

nano-banana-marquee-1400x560.png	Nano Banana 2 — Marquee tile (ready to use as-is, or restyle)
nano-banana-ref-icon-512.png	Nano Banana 2 / VEO 3.1 — the brand icon lockup
nano-banana-ref-brandkit.png	Both — palette, voice, and type reference
veo-scene-1...6-storyboard.png	VEO 3.1 — one reference frame per scene of the 30s video

1 • Brand kit (feed to both tools)

Keep every generated asset on-brand: dark charcoal ground, a single amber accent, sleek and confident.

assets/nano-banana-ref-brandkit.png

- **Palette:** Ink `#09090B` , Surface `#141418` , Amber (primary) `#f59e0b` , Gold (icon) `#FACC15` , Text `#e7e7ea` .
- **Voice:** charismatic, warm, confident. **No em dashes** anywhere in the copy.
- **Icon:** the amber coach mark on a dark rounded square. Never recolor it.
- **Tagline:** "Coach the conversation you're viewing."

2 • Store screenshots (up to 5 • 1280×800)

Reference image for ALL five: `assets/nano-banana-screenshot-1-panel-1280x800.png` . Attach it every time so the panel's look (dark card, amber tools, the streaming reply + "Move" line) stays exact. Change only the background app and the highlighted feature.

Messages

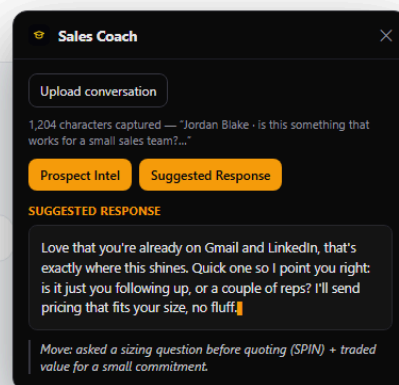

-  **Jordan Blake**
is this available for teams?
-  **Priya N.**
thanks! I'll check
-  **Marcus Lee**
sounds good 🍌

 **Jordan Blake**

Hey — saw your post. Is this something that works for a small sales team?

Mostly Gmail and LinkedIn. Honestly we're drowning in follow-ups. What's the pricing?

Message...

`assets/nano-banana-screenshot-1-panel-1280x800.png` • the reference (and a finished Screenshot #1)

Screenshot 1 — Suggested Response on a DM/inbox (1280×800)

Using the attached reference as the exact UI, produce a crisp 1280×800 product screenshot: a clean laptop-style messaging inbox (light theme, generic, not a real brand's logo) with a sales chat open, and the dark "Sales Coach" side panel docked top-right. The panel shows two amber buttons "Prospect Intel" and "Suggested Response", a "SUGGESTED RESPONSE" heading, and a warm charismatic drafted reply with a small amber caret, plus an italic "Move:" note. Sharp, high-contrast, no people, no watermark, 24-bit, no alpha. Match the reference colors exactly (#09090B panel, #f59e0b buttons).

Screenshot 2 — Prospect Intel (1280×800)

Same reference + UI. Show the panel's "Prospect Intel" result instead: 3 short sections, "Where the deal stands", "What's working", "The next move", in the same dark/amber style, over a LinkedIn-style message thread (generic). 1280×800, no alpha.

Screenshot 3 — Works anywhere (1280×800)

Same reference + UI. Same panel over an Instagram-DM-style dark chat (generic, no logos) to show it works on any site. Keep the panel identical. 1280×800, no alpha.

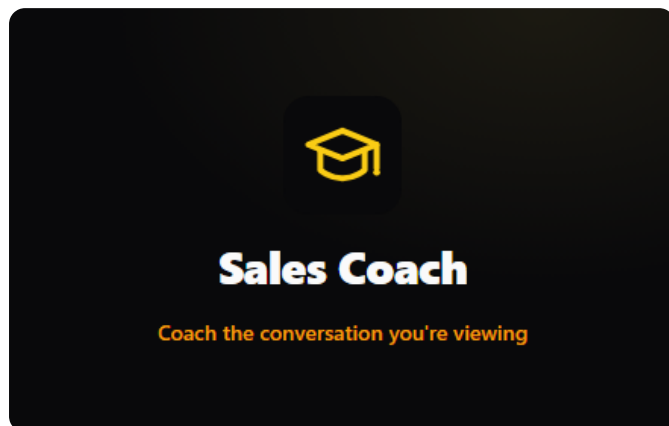

Screenshot 4 — Upload a conversation (1280×800)

Same reference + UI. Emphasize the "Upload conversation" button (subtle amber glow) with a small PDF file icon being dropped onto the panel. Caption space top-left: "Paste, or upload a chat export." 1280×800, no alpha.

Screenshot 5 — The move, explained (1280×800)

Same reference + UI. Close-up composition on the reply + the italic "Move:" line, with a soft callout arrow pointing to it and the words "...and why it works." Dark background, amber accent. 1280×800, no alpha.

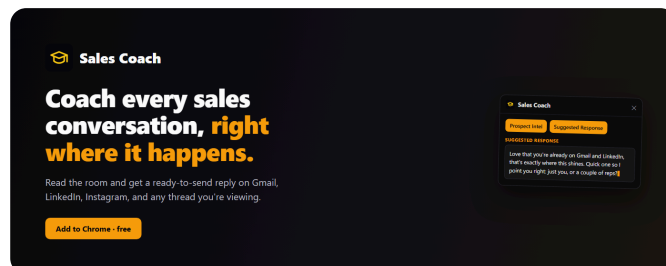

Small promo tile — 440×280

assets/nano-banana-small-tile-440x280.png • usable as-is

Reference: the attached tile. A 440×280 promo tile: dark charcoal background with a soft amber radial glow top-right, the amber coach icon centered, "Sales Coach" in bold white below, and the amber tagline "Coach the conversation you're viewing." Centered, balanced, 24-bit, no alpha. Keep it clean, one accent color.

Marquee promo tile — 1400×560

assets/nano-banana-marquee-1400x560.png • usable as-is

Reference: the attached marquee. A 1400×560 hero banner: dark gradient (charcoal to warm amber-tinted), left side the icon + "Sales Coach" + a bold headline "Coach every sales conversation, right where it happens." with "right where it happens." in amber, a one-line subhead, and an amber "Add to Chrome" button; right side the dark Sales Coach panel showing a streaming reply, tilted slightly. No people, 24-bit, no alpha.

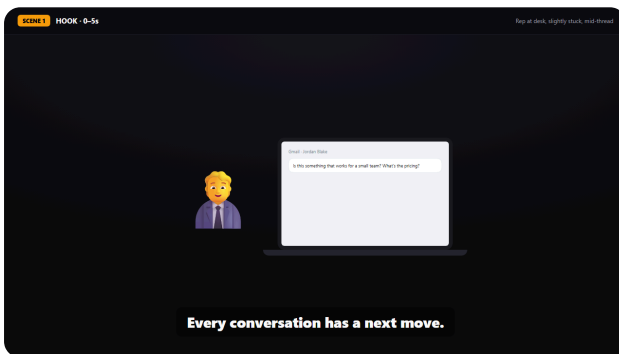

4 • 30-second promo video (6 × 5s)

Each scene below is one complete prompt. The shared style is already written into every block, so there's nothing to assemble: **copy a whole block, paste it into VEO 3.1, attach that scene's storyboard frame as the reference, and generate.** Do all six, then stitch them in order. **No em dashes in any text.**

Easiest way to copy-paste: open `prompts.md` in this same folder. It has these exact prompts as plain text (one clean block per scene) so you can select and copy without fighting PDF text selection. This page is the visual reference; `prompts.md` is the copy source.

Scene 1 — Hook (0–5s)

► Attach this frame as the reference in VEO 3.1: `assets/veo-scene-1-storyboard.png`

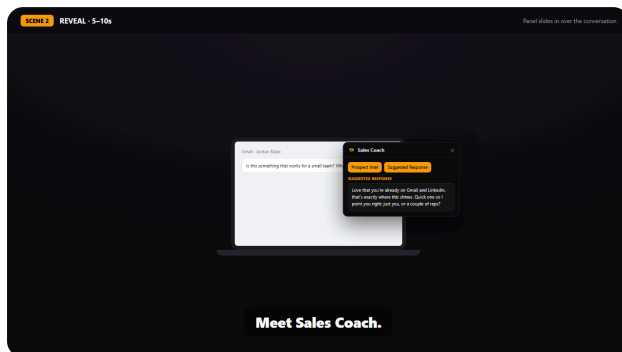

COPY THIS WHOLE BLOCK → VEO 3.1

Modern, premium software promo. Clean desk, soft warm key light, dark moody background with a single amber accent. Shallow depth of field, gentle camera push-ins, smooth UI motion. 16:9, high detail, no text artifacts, no logos of real companies. A salesperson at a laptop mid-conversation, leaning back, thinking about how to reply. Slow push-in on the screen showing an unanswered sales chat. Warm, human. On-screen text (clean sans, fades in): "Every conversation has a next move." Audio: soft ambient pad begins; a single warm piano note. VO: "Every sales conversation has a next move."

Scene 2 — Reveal (5–10s)

► Attach this frame as the reference in VEO 3.1: [assets/veo-scene-2-storyboard.png](#)

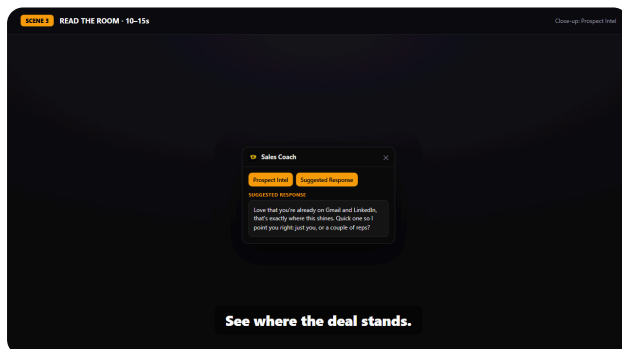

COPY THIS WHOLE BLOCK → VEO 3.1

Modern, premium software promo. Clean desk, soft warm key light, dark moody background with a single amber accent. Shallow depth of field, gentle camera push-ins, smooth UI motion. 16:9, high detail, no text artifacts, no logos of real companies. The dark "Sales Coach" panel slides in smoothly from the right and docks over the conversation on the laptop screen. Amber tool buttons catch the light. Confident, snappy motion. On-screen text: "Meet Sales Coach." Audio: a soft whoosh as the panel appears; the music adds a light beat. VO: "Meet Sales Coach."

Scene 3 — Read the room (10–15s)

► Attach this frame as the reference in VEO 3.1: [assets/veo-scene-3-storyboard.png](#)

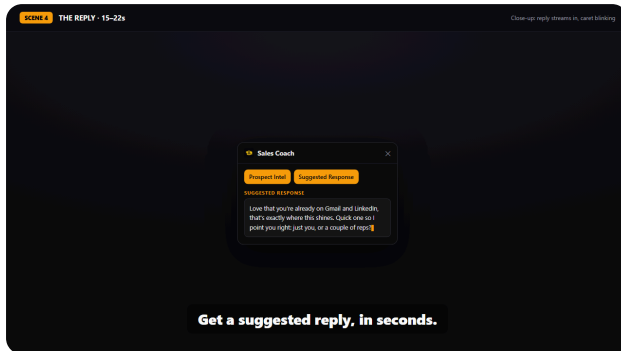

COPY THIS WHOLE BLOCK → VEO 3.1

Modern, premium software promo. Clean desk, soft warm key light, dark moody background with a single amber accent. Shallow depth of field, gentle camera push-ins, smooth UI motion. 16:9, high detail, no text artifacts, no logos of real companies. Close-up on the panel. The "Prospect Intel" button highlights; a short read appears: where the deal stands, what's working, the next move. Gentle amber glow. On-screen text: "See where the deal stands." VO: "It reads the room, so you know exactly where the deal stands."

Scene 4 — The reply (15–22s)

► Attach this frame as the reference in VEO 3.1: [assets/veo-scene-4-storyboard.png](#)

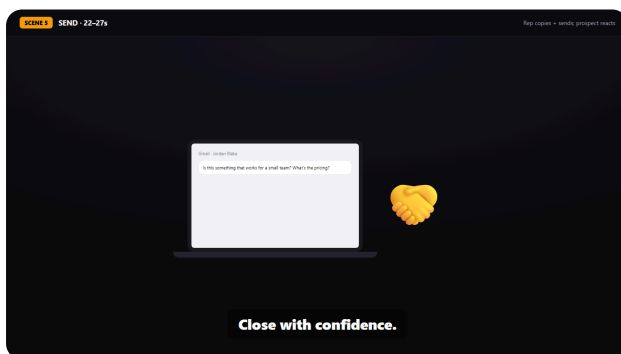

COPY THIS WHOLE BLOCK → VEO 3.1 (THE HERO SHOT — LET IT RUN A TOUCH LONGER)

Modern, premium software promo. Clean desk, soft warm key light, dark moody background with a single amber accent. Shallow depth of field, gentle camera push-ins, smooth UI motion. 16:9, high detail, no text artifacts, no logos of real companies. Tight on the panel as a charismatic reply types itself in word by word, an amber caret blinking, then the italic "Move:" line appears beneath it. The single most important shot: linger on the streaming text. On-screen text: "A ready-to-send reply, in seconds." Audio: soft key-click texture as it types; music lifts. VO: "and hands you a reply that sounds like your best self, in seconds."

Scene 5 — Send (22–27s)

► Attach this frame as the reference in VEO 3.1: [assets/veo-scene-5-storyboard.png](#)

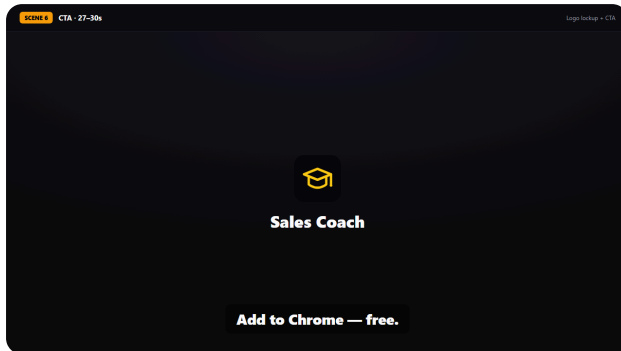

COPY THIS WHOLE BLOCK → VEO 3.1

Modern, premium software promo. Clean desk, soft warm key light, dark moody background with a single amber accent. Shallow depth of field, gentle camera push-ins, smooth UI motion. 16:9, high detail, no text artifacts, no logos of real companies. The rep copies the reply and sends it; a satisfied smile; a positive reply bubble appears. Momentum, warmth. On-screen text: "Close with confidence." VO: "Send with confidence, and keep the conversation moving."

Scene 6 — CTA (27–30s)

▸ Attach this frame as the reference in VEO 3.1: `assets/veo-scene-6-storyboard.png`

COPY THIS WHOLE BLOCK → VEO 3.1

Modern, premium software promo. Clean desk, soft warm key light, dark moody background with a single amber accent. Shallow depth of field, gentle camera push-ins, smooth UI motion. 16:9, high detail, no text artifacts, no logos of real companies. Clean end card on dark: the amber coach icon and "Sales Coach" animate in, then the line "Add to Chrome, free." An amber button pulses once. On-screen text: "Sales Coach · Add to Chrome, free." Audio: music resolves on a warm chord. VO: "Sales Coach. Coach the conversation you're viewing."

5 • Assembly checklist

- Generate the 6 clips (one per scene) with the matching storyboard frame attached as a reference.
- Stitch in order 1→6 to hit ~30s; trim each to keep the pace tight (the reply scene can run a touch longer).
- One music bed across all six; ride the VO under it. Keep captions on (accessibility + muted autoplay).
- Export 1920×1080 MP4, upload to YouTube, paste the URL into the store's "Global promo video" field.
- Store images: Screenshots 1–5 at 1280×800, Small tile 440×280, Marquee 1400×560, all 24-bit PNG or JPEG, **no alpha**.
- Keep the voice charismatic and dash-free; scrub any real customer names from screenshots (use the demo thread).
